

Using Blackboard with IE 7 on Vista - Disabling the Text Box Editor

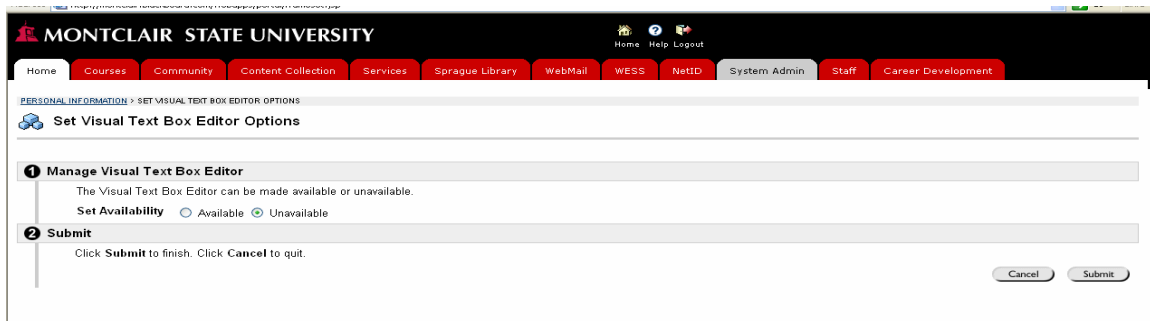

If you are using the Microsoft Vista operating system, **you must turn off the Visual Text Box Editor in order to be able to enter text in Announcements, Discussion Board and other text fields.**

The steps below will set your preferences in Blackboard so that the Text Box Editor is disabled:

- 1) Log into **Blackboard**
- 2) On My Home page, under the Tools module, select **Personal Information**

- 3) Select **Set Visual Text Box Editor Options**

- 4) Click the **Unavailable** radio button
- 5) Click **Submit**
